

CREATE AND CONFIGURE IBM CLOUD SERVICES

Team ID	PNT2022TMID17642
Project Name	INDUSTRY- SPECIFIC INTELLIGENTFIRE MANAGEMENT SYSTEM

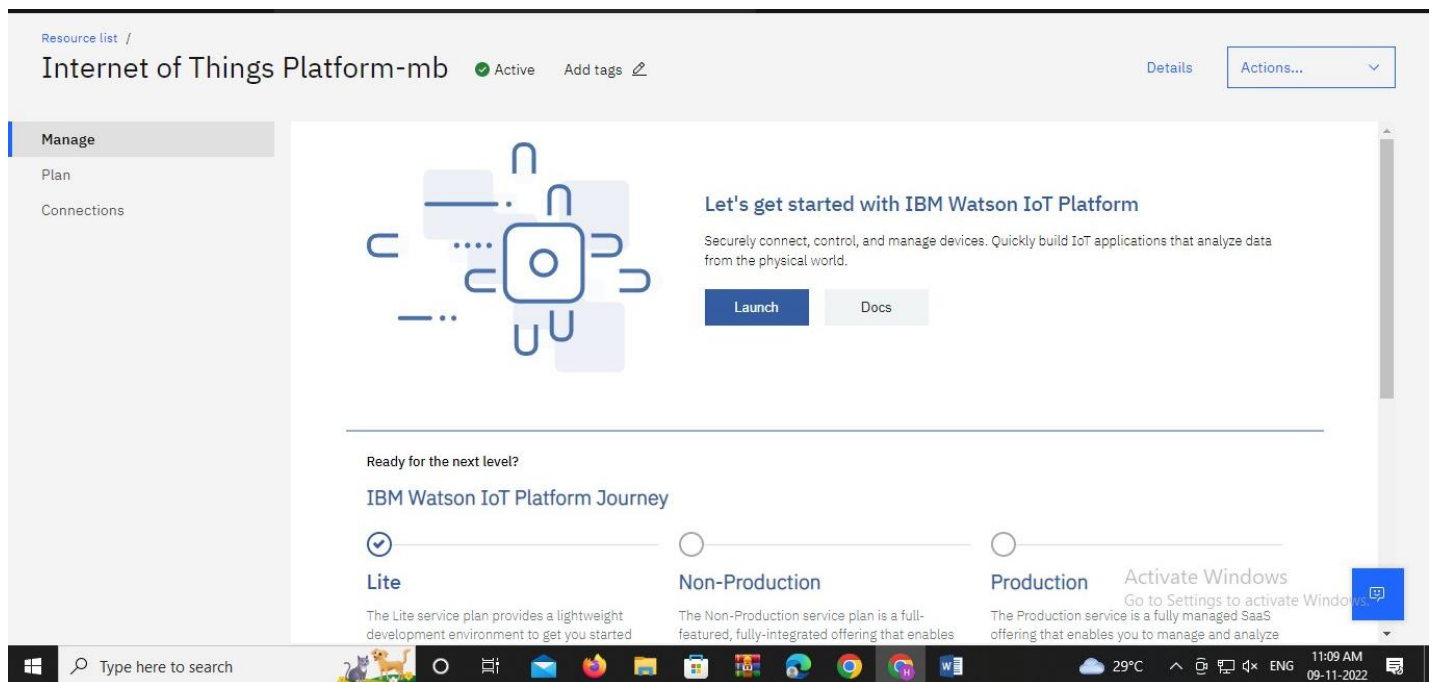

1. CREATE IBM WATSON IOT PLATFORM AND DEVICE

IBM CATALOG PAGE:

The screenshot displays the IBM Cloud Catalog interface. At the top right, there are links for "Sell on IBM Cloud" and "Catalog settings". The main header area features the word "Catalog" and a search bar with the placeholder text "Search the catalog...". Below the header, a navigation sidebar on the left lists categories: "Recommended products (6)", "Compute (30)", "Containers (9)", "Networking (30)", "Storage (20)", "AI / Machine Learning (17)", "Analytics (10)", and "Blockchain (1)". The main content area shows "Viewing 206 products" and a sorting dropdown set to "Alphabetically". Three product cards are visible: "Analytics Engine By IBM" (submitting Apache Spark applications), "AnonTech ViziVault Platform By Anon Technology, Inc." (managing personal information), and "API Connect By IBM" (enterprise-grade platform for APIs). Each card includes a description and a list of features (e.g., "Lite", "Free", "HIPAA Enabled", "IAM-enabled"). The bottom of the image shows a Windows taskbar with various application icons and a system clock indicating 10:50 AM on 09-11-2022.

CLICKING ON LAUNCH IN IBM WATSON IOT PLATFORM

ADDING DEVICE WITH DEVICE ID-11
